Table of Contents

Dok-Lok® Vehicle Restraints

Pg. 1-8

LDL-500 Series DOK-LOK Vehicle Restraint

SDL-900 Series DOK-LOK Vehicle Restraint

RHR-600 Series DOK-LOK Vehicle Restraint

RHR-1000 Series DOK-LOK Vehicle Restraint

Rite-Hite® VBR Vehicle Restraints

Pg. 9-14

Rite-Hite® VBR-300:
Vertical Barrier - Hydraulically Powered

Rite-Hite® VBR-300M:
Vertical Barrier - Mechanically Operated with Manual Light Switching

Rite-Hite® VBR-300ALP:
Vertical Barrier - Mechanically Operated with Automatic Light Package

Replacement Parts Quick Reference for Dock Levelers and Vehicle Restraints

Pg. 15-17

DOK-LOK Product Description

Model Number: LDL-500

APS Resource offers replacement parts for LDL-500 vehicle restraints manufactured after May 1989 (the **G3** Revision). LDL-500 units manufactured after March 1999 have **G3M** motor & limit switch connections. Be certain of the connections before ordering parts.

The LDL-500 Series of the DOK-LOK® Vehicle Restraint can be identified as follows:

- The motor is on the left side of the hook as you are facing the unit. Units that are pre-1989 have the motor on the right side.
- The control box for the LDL-500 has push buttons for "Lock" and "Unlock".
- Inside of the control box, there is simple transformer and timer (no PLC or circuit boards).

Model Number: SDL-900

APS Resource offers replacement parts for SDL-900 vehicle restraints manufactured after May 1989 (the **G3** Revision). SDL-900 units manufactured after March 1999 have **G3M** motor & limit switch connections. Be certain of the connections before ordering parts.

The SDL-900 Series of the DOK-LOK® Vehicle Restraint can be identified as follows:

- The motor is on the left side of the hook as you are facing the unit. Units that are pre-1989 have the motor on the right side.
- The control box for the SDL-900 has touch pads (rather than push buttons) for "Lock" and "Unlock".
- The inside of the control box has circuit boards.
- The control box has alarm override buttons, numbered 1-2-3 in the lower left hand corner of the box.

Model Number: RHR 600

- Introduced approximately July 2001.
- Uses **G3M** electrical connections.
- The outside light assembly is plastic.
- The inside of the control box has circuit boards.
- The control box has two touch pads for activation and one touch pad for the horn silence feature.
- 12" carriage with 1-piece slope extension standard, but also available in 9" carriage with 2-piece extension.

Model Number: RHR 1000

- Introduced approximately July 2001.
- Uses **G3M** electrical connections.
- The outside light assembly is plastic.
- The inside of the control box has circuit boards.
- The control box has two touch pads for activation and a 3-pad horn silence code feature.
- 9" carriage with 2-piece slope extension standard, but also available in 12" carriage with 1-piece extension.

VBR-300 Product Description

The VBR-300 vehicle restraint by Rite-Hite® is a ground stored restraint that can be either manually operated with manual light switching (VBR-300M), manually operated with automatic light switching (VBR-300ALP), or hydraulically operated (VBR-300). Rite-Hite® Corporation released the VBR Restraint series in 2000. The VBR series provides a 4-1/4" vertical barrier moving vertically on a track to engage Rear Impact Guards (RIG).

APS Resource Warranty

APS Resource warrants that, except as noted below, any part or product sold by it will be free from defects in material and workmanship for a period of one year from the date of initial shipment by APS Resource. This warranty covers only the particular part or product supplied by APS Resource and does not extend to any other component or equipment. This warranty does not apply to signal or control light bulbs. Parts requiring replacement due to vehicle impact, abuse, or improper installation or operation of equipment are not covered by this warranty. APS Resource's sole liability in connection with the sale of its parts and products is limited to the replacement of the particular defective part or product supplied by APS Resource.

Except as set forth above APS Resource makes no warranty, express or implied, with respect to any parts or products, and APS Resource disclaims any implied warranties, including those of merchantability or fitness for any purpose. In no event shall APS Resource be liable for any incidental, consequential or special damages of any kind.

APS RESOURCE DISCLAIMS ALL WARRANTIES AND LIABILITIES, whether express or implied, arising out of the use of any PARTS in a manner inconsistent with the installation, operation, service and/or maintenance instructions and all warnings provided by the Original Equipment Manufacturer (OEM). Purchasers should refer to the applicable OEM written materials when selecting, purchasing, installing, maintaining, or servicing PARTS. APS RESOURCE has not independently reviewed any OEM written materials for completeness or accuracy and DISCLAIMS ANY RESPONSIBILITY OR LIABILITY arising out of any errors and/or omissions in such materials. In selling PARTS, APS RESOURCE is not attempting to modify and DISCLAIMS ANY RESPONSIBILITY OR LIABILITY for any modification to and/or any updating of the original equipment and all of its components.
