

Are Your Loading Docks Compliant with **OSHA 1910.28?**

In 2017, OSHA put new Fall Protection Standards into effect under OSHA 1910.28. The standards require warehouses with docks at a height of 48" or higher to take additional safety measures. Are you compliant?

At **Timbers Kovar Co.**, we understand the importance of load dock safety. Our team of experts can assist you in achieving OSHA compliance, from safety audits to equipment upgrades.
